Internship Program Basics

The internship opportunity is an effective method that is used to introduce students to skills, thinking, environment, and expectations that await them after graduation. Employers and schools recognize that when young people understand the nature of work and the opportunities available to them, they are more likely to become productive, responsible members of the community. In turn, these same youth begin to value their educational experience.

The following criteria will be used when selecting candidates for the internship program:

- A minimum GPA of 2.5 is recommended.
- Completion of all course projects and assignments.
- 95% attendance rate.
- Reliable transportation to and from the work site.
- Completion of the interviewing process with the Co-Directors.
- Early release eligibility.
